Dr. Jane E. Henney
5600 Fishers Lane
Rockville, MD 20857

Dear Dr. Henney,

I am writing to ask you to help us fight the increase of bacterial strains which are immune to the drugs we currently use in the treatment of diseases like tuberculosis, pneumonia and staph-infections. Antibiotics used as a feed additive to fatten livestock more quickly is making these bacteria more resistant to traditional treatment. Please ban the use of antibiotics as growth promoters. Our nation's health will benefit and the Food and Drug Administration will have done its job!

Thank you for reading this letter and acting for the good of all.

Sincerely,

Mary T. Hess
